# NGUYEN TRUNG KIEN

## Frontend Developer

## SUMMARY

- Over 3 years of experience in frontend development with **ReactJS** and **VueJS**.
- Strong proficiency in **HTML**, **CSS/SCSS**, **JavaScript/TypeScript**, and responsive design.
- Hands-on experience with **React workflows (Context, Redux)**, performance optimization, and reusable components.
- Skilled in RESTful APIs, Git, and full-stack projects using ExpressJS and NestJS.
- Learn more at [kiennguyendev.info](https://kiennguyendev.info).

## EDUCATION

### SAIGON Technology University (STU)

Information Technology

TOEIC: 550

## SKILLS

- Extensive knowledge of frontend development using HTML, CSS, and responsive design.
- Proficient in **JavaScript** and **TypeScript**.
- Experience with modern frontend frameworks and libraries such as **ReactJS**, **NextJS**, **VueJS**, **Redux**, **Vuex**
- Skilled in using **Tailwind CSS**, **Material UI**, and **SCSS** for styling.
- Backend development experience with NodeJS, ExpressJS, and NestJS.
- Familiarity with Firebase and databases such as MySQL, PostgreSQL, and MongoDB.
- Able to read/write documents in English.
- Strong communication, teamwork, problem-solving, and time management skills.

## TECH STACK

- Programming Languages: JavaScript, TypeScript.
- Frontend: ReactJS, NextJS, VueJS, Redux, Pinia, Vuex, NuxtJS, Tailwind CSS, Material UI, SCSS, CoreUI, Element Plus.
- Backend: NodeJS, ExpressJS, NestJS.
- Database: MySQL, PostgreSQL, MongoDB, Firebase.

## PROFESSIONAL EXPERIENCE

### Frontend Developer (ReactJS, VueJS)

#### Gkbeauty (Oct 2024 - Present)

- Led the frontend team, managing tasks and ensuring efficient delivery.
- Optimized real-time processing with Socket, preventing RAM overflow.
- Built smooth UIs with ReactJS, VueJS, Redux, Zustand, and React Query, integrating **MetaMask** and **custom data charts**.

### Frontend Developer (ReactJS, NextJS)

#### Hitek Group JSC (Jul 2022 - Oct 2024)

- Led the frontend team, developing web apps with ReactJS, NextJS, Redux, and Material UI.
- Proactively learned new technologies and techniques, applying them to improve development processes and product quality.
- Contributed to building and maintaining new features, concurrently optimizing source code, which improved application performance.
- Built and maintained web applications for Korean, Japanese, and Vietnamese customers.

### Intern Frontend Developer (ReactJS)

#### MinhPhu Solution (Apr 2022 - Jul 2022)

- Developed UIs with ReactJS, NextJS, integrating RESTful APIs.
- Built features like Q&A, task completion, gifting, leaderboards, gift history, and in-game effects.

# PROJECTS

## GKBEAUTY - Bitruth Game Trading

- Overview: Bitruth Game Trading is a web-based gaming platform that offers users 1000 daily points to participate in cryptocurrency-themed games, including Options, Futures, and High-Low. Players can achieve milestones to withdraw USDT rewards. The platform includes additional features such as daily tasks, check-in rewards, and more, delivering an engaging and interactive gaming experience.
- Role: Frontend Developer
- Technologies: React, JavaScript, HTML, CSS, API Integration, Charting Libraries
- Responsibilities:
  - Developed and optimized user interfaces for the gaming platform based on design specifications.
  - Integrated APIs to enable seamless data flow for game functionalities, user tasks, and check-in features.
  - Implemented interactive charts for real-time cryptocurrency game data visualization.
  - Handled game logic for Options, Futures, and High-Low, ensuring smooth and accurate gameplay.
  - Collaborated with backend and QA teams to deliver a high-quality, user-friendly gaming experience.

## GKBEAUTY - Dikex Client

- Overview: This website is a cryptocurrency exchange platform that allows users to trade digital assets like Bitcoin (BTC) and USDT. It provides features such as market orders, limit orders, order books, price charts, and trading history to facilitate buying and selling cryptocurrencies.
- Role: Frontend Developer
- Technologies: VueJS, Vuex, Scss
- Responsibilities:
  - Developing the UI for charts and implementing interfaces based on design specifications.
  - Handling real-time chart updates and customizing chart functionalities to enhance user experience.
  - Ensuring seamless data visualization and integrating market trends into the trading platform.
  - Integrating APIs and implementing platform features to enhance functionality.
  - Report Load Optimization with Next.js: Optimized report loading speed using Next.js to improve performance and user experience.

## GKBEAUTY - Best Trader

- Overview: The "Best Traders" website provides analytical insights into the modern investment market, particularly cryptocurrency. Users can track investment trends, rank top traders on major exchanges, and enhance their portfolios with detailed analytics.
- Role: Frontend Developer
- Technologies: ReactJS, React SWR, Styled-components, ApexChart, Zustand,..
- Responsibilities:
  - Developing UI components and animations based on design specifications.
  - Integrating APIs and implementing platform features to enhance functionality.
  - Utilizing caching with SWR to optimize performance and improve data fetching efficiency.

## Hitek Group JSC - LMS

- Overview: A scalable web app that connects English teachers and students worldwide, offering tools for scheduling, communication, and progress tracking.
- Role: Frontend Developer
- Technologies: ReactJS, NextJs, Redux, Material Ui.
- Responsibilities:
  - **Define the architecture, coding convention**, and set up CI/CD pipeline for all Front-end projects (include linter, build script)
  - Implemented important sections of the front-end application, completing an estimated **80%** of the main user interface.
  - Communicated closely with the Project Manager and Business Analyst (BA) on generating product roadmaps.
  - Provided estimations for items on the product roadmap and assigned them to team members.

## Hitek Group JSC - Fansome

- Overview: A Korean social networking platform with ~1K daily users, featuring real-time chat, video calls, and user-generated content — designed for sharing life stories and community interaction, similar to Facebook or Instagram.
- Role: Frontend Developer
- Technologies: ReactJS, NextJs, Redux, Material Ui.
- Responsibilities:
  - Built UI and ensured responsiveness across devices, integrated APIs using RESTful API.
  - Managed project timelines and ensured steady progress by planning and maintaining development schedules.
  - Reviewed and optimized code, fixed bugs, and provided technical solutions based on customer requirements.
  - Implemented **core project features** such as video calling, real-time chat, and payment gateway (PG) integrations.

# PROJECTS

---

## Hitek Group JSC - AllOne

- Overview: An e-commerce platform for selling footwear to Korean customers, featuring product browsing, shopping cart, payment gateway integration, and order management.
- Role: Frontend Developer
- Technologies: ReactJS, SCSS.
- Responsibilities:
  - Built user interfaces based on Figma designs using ReactJS, SCSS.
  - Developed features such as browsing, cart, checkout, payment integration.
  - Addressed feedback from QC and customers.

## MinhPhu Solution - CMS

- Overview: Developed a comprehensive CMS for MinhPhu Solution, enabling static page generation, content management, and dynamic rendering.
- Role: Full-stack Developer
- Technologies: ReactJS, NestJS, PostgreSQL, Sequelize.
- Responsibilities:
  - Implemented static page generation with NextJS for SEO and performance.
  - Managed content, tags, and menus for seamless site customization.
  - Developed backend services for content and file management using NestJS and PostgreSQL.
